Dear Mr Freund

Thank you for your generous donation to Sholem Aleichem College. We are delighted that you have been inspired to purchase one of the new recycled plastic seats for the redeveloped playground, which will demonstrate to our students the importance of caring for the environment.

With your ongoing support Sholem Aleichem College can continue to grow and provide its students with the best possible educational environment, one that enables excellence in learning and teaching. Our underlying goal is to ensure that children gain "values for a lifetime", and our motto, "Make mine a Mentsh" epitomises the important goals of the school.

Your support enables us to continue to foster an awareness of all aspects of Jewish life with a particular emphasis on the promotion of Yiddish language and literature, Hebrew and Jewish culture *veltkhe yiddishkayt* - a secular approach to Jewish history, traditions and customs, ethics and values. As you know, our purpose is to cultivate in our students a passionate sense of Jewish identity and a sense of belonging to the world-wide Jewish people with special ties to the Australian Jewish community and the State of Israel.
